IObit: Global M-Commerce is Boosting to New Record High in 2015

New AMC Security Provides Mobile Users with Safe Payment Environment

(New Delhi-Business Wire) IObit, after launching Advanced SystemCare Ultimate 8 for PC last week, announced today that its flagship Android app, AMC Security v4.6.0, is released with a new feature named Payment Guard, which is designed to protect mobile users' financial data and mobile payment/banking process. To provide authentic payment protection, AMC Security has built key strategic partnerships with more than 1,000 of the world's leading mobile banking apps and online retailing apps.

AMC Security's users can have an overall scan with one tap or choose to safe access one specific banking/payment app in Payment Guard which guarantees a safe paying environment with

● Fake Wi-Fi Hotspot Detector

● Copycat Payment App Remover

● Account & Password Theft Catcher

● Fake/ Phishing Sites Blocker

According to Fiona Choo, PM of IObit Mobile, AMC Security has built a base of more than 12 million consumer users for Android only, including hundreds of thousands of paying customers. It has quickly established itself as a global leader in the mobile security space by building long-term partnerships with scores of the world's major mobile manufacturers, operators and carriers who show great interests in AMC Security and believe the payment security issue is a future rising industry that is yet to boom to provide payment protection to their users and subscribers.

 "With the increasing awareness of mobile wallet, 2015 will see the global m-commerce market's boosting to reach a new record high level. Therefore, our Payment Guard is just the beginning. AMC Security will keep on working out solutions for NFC and fingertip payment methods," said Fiona.

About AMC Security:

AMC Security (a.k.a. Advanced Mobile Care) is an all-in-one Android security and performance optimization app. It not only keeps people safe from various mobile threats, data and device loss, but also boosts up lagging devices and reclaims memory at its top performance. AMC Security is free to download on Google Play:
